Cub Pack 328 Holds an Indian "Pow-wow" Oct. 26

Cub Pack 328 of Ocean Beach had its October "Pack" meeting in the canyon back of 4064 Voltaire st., Thursday, October 26, featuring an Indian "pow-wow." All the "Cubs" came dressed as Indians and so did the Cubmaster, Father Phil Harris. The young "Braves" did a ceremonial dance around the campfire followed by an interesting Indian story told by "Chief Sky Pilot." The Indian "Braves" formed a circle around the campfire and outside of this circle were the teepees, made by the "Cubs" at "Den" meetings during the month. The pennant was won by "Den" 7, for having the greatest number of parents present.

Achievement awards were given to the following "Cubs": William Conklin, Dick Sullivan, Robert Sullivan, Billy Hall, and Earl Lewellyn.

For regular attendance at "Den" meetings for one year, one year stars were given to the following "Cubs": Earl Lewellyn, Bobby Northern, Chas. G. Smith, Paul Morton, and Donald Vedder.

Many thanks were extended to Hulon Sullivan, assistant cubmaster for preparing the canyon for the "Pack" meeting and to the "Den" mothers for assisting. The women were: Mesdames Hulon Sullivan, Leda Roshon, H. P. Aubrey, "Bud" Jennings and Gladys Keck and Mrs. Amy K. Vedder.

Masons Celebrate 19th Anniversary Of Lodge Founding

Point Loma Lodge No. 620 F. and A. M. celebrated the 19th anniversary of the founding of the order in Ocean Beach at the annual dinner, held Saturday evening in the lodge hall on Newport ave.

The attendance was the largest in the history of these annual dinners, with 110 men and women present. Wives of the Masons were guests, and special guests were Dr. and Mrs. F. R. Felt and Ernest Hill, the latter a past master of his lodge at Sheffield, England. He came to this country to escape the bombing in England and thus far has been unable to obtain transportation for the return trip. He is living with his sister on Soto street.

The dinner committee, consisting of Nels I. Berge, master of the lodge, and Lloyd Greeson and Harold K. Rankin, served a turkey dinner with all the trimmings. Decorating of the tables was the work of wives of the lodge and included autumn flowers and berries.

Nels Berge presided as master of ceremonies and at the program that followed the dinner. Talks were given by past masters and charter members of the lodge. Pt. Loma lodge has had rapid growth during the past year and now numbers 211 members. Of the total, 93 are now serving in this war.

Gardner, Morgan, Severtson, Long, Woodland, Putney, Saville, and Miller.

The sale of war stamps and bonds gave us \$120.35. Mrs. Jones, fifth grade room was high, with a total of \$33.10.

At the weekly student assembly to be held today (Friday) the members of Mrs. Kirby's fifth and sixth grade room will be in charge of the program. They will show pictures and read stories of Colonial life and 10 children in Colonial costumes will dance the minuet. These children have recently completed a unit on "Colonial Life in Social Studies."

Dr. and Mrs. John W. Wilhoit left Tuesday on a vacation trip to Colorado and likely Utah, and Idaho, to be gone at least two weeks. They traveled by plane from Los Angeles. "Doc" expects to catch up on his big game hunting and fishing. During his absence, Dr. J. L. McSparran of Pasadena is in charge of Dr. Wilhoit's practice. McSparran lived in Japan 25 years and returned to this country two years ago on the prisoner exchange ship Gripsholm.

The major writes that servicemen stationed in New Guinea are now eating watermelon that they had planted this summer.

Pointers to Play San Diego "High" On Latter's Field

Spurred on to fighting pitch by their defeat at the hands of Coronado Friday, the "Pointers" of Pt. Loma high school are to clash with the top team of the league, San Diego high at the "Hillers" field this Friday afternoon. Coach Maxwell's lads will enter the game as underdogs and are plugging to upset the league leaders.

In Friday's game on Ross field, the Pointers, over-confident, played a listless game in the first half and were unable to cope with the team-work and blocking of the Islanders. The result was 13 to 7 in favor of Coronado.

Coronado punched over its tallies in the first and second quarters, the first following a blocked Pointer punt on the Pt. Loma 40. Ray Turnipseed finally swept around end from the four-yard line for the marker. Carl Turnipseed's try for point was wide.

Hal Neidermeyer's crew drove for 40 yards in the second stanza, mostly on line plays around end, the surge being climaxed by a toss from Oscar Ames to End Stuart Sowles for 15 yards and the marker. George Masek took a reverse from Darryl Rounds to notch the extra point.

Pt. Loma came to life in the final chapter to take advantage of a bad Coronado kick and set up its only tally, Tommy Jones finally going over from the two-yard stripe.

Summary:
Coronado 6 7 0 0—13
Pt. Loma 0 0 0 7—7

Coronado scoring: touchdowns—R. Turnipseed, Sowles; point after touchdown—Masek.

Pt. Loma scoring: touchdown—Jones; point after touchdown—Williams (placement).

In other games Friday in the league, San Diego high trounced Sweetwater 32 to 0 and La Jolla won from Hoover high, 12 to 0.

We have some good news with regard to the Christmas boxes. Quite a few women have taken the boxes and are very enthusiastic about filling them.

We have received another \$5.00 from our former very loyal worker, Mrs. Mae Heidbrink, who moved to Denver, Colo., sometime ago. With the money sent by Mrs. Heidbrink, we have purchased a number of little articles (as enumerated on the acceptable contents list given out by the Red Cross) to fill six Christmas boxes and gift-wrap them in her name as the money sent was contributed personally by Mrs. Heidbrink.

Haven't you a book or two or more that you've already read and that you'd be willing to let some of our fighting men enjoy? Take them to the public library, Sunset Cliffs and Santa Monica ave., just across from the Ocean Beach school, the same as Mrs. A. H. Bogue, of Sector A.A. is doing, who just donated a number of late novels issued by the Book of the Month club to which she belongs. Incidentally, the best-liked books are mysteries and late technical works.

Also, when buying your Christmas cards, buy a few extra ones for the men at the hospitals to send home to their families and friends.

POLICE REPORT DAMAGE ON HALLOWEEN NIGHT AS UNUSUALLY LIGHT

Property damage on Halloween night is reported by the local police to have been unusually light. About the only case reported was slight damage to the Cord home at 3110 Browning st. in the Loma Portal section. Most of the juvenile celebration of the night appears to have been the soaping of windows and the calling at homes for "treats or tricks." The three boys, each 14, caught at the Cord home were released to their parents, reports Sgt. R. J. Karrow.

Three runaway boys from Azure Vista were picked up Saturday by the El Centro police in a stolen car and were returned here for action.

Emmett L. Kemp, 5076 Cape May ave., reported to the police the loss of about \$40 worth of property including camera, flashlight, gloves, numbering machine and other items stolen from his car which was parked overnight Saturday in front of his home.

Kraft Explains 12 Propositions To Be Voted On

Explanation of the 12 California state propositions to be voted on next Tuesday at the general election featured the Tuesday evening meeting of the Ocean Beach Kiwanis Club, held at the Woman's club house. Assemblyman Fred H. Kraft of Ocean Beach was the speaker and gave an informative explanation of the proposed amendments.

He presented arguments pro and con, replied to questions and pre-empting the explanations told how these propositions came before the people through previous action of the California state legislature. He urged the Kiwanians to study the 12 carefully before deciding how to vote.

Previous to the program the club took a poll on their plans for voting on president in the coming election. The result was 24 votes for Dewey to six for Roosevelt out of the 30 who cast straw votes.

Earl Shaw presided as program chairman.

Visitors at the meeting were James Morris of Ocean Beach, a guest of Rollin Reed, Warren Mead of San Diego, the secretary of the Padres baseball club, a guest of Phil Harris; and Blair Monson of San Diego, a guest of Henry Holman; Dr. Geo. Warner and James McKinney, members of the San Diego Kiwanis club, the latter a past president of the local club; and Sailor Harry Lovett of Beaver Bay, Minn., the military guest of the evening.

Dr. F. R. Felt, the program chairman for next week's meeting, announces that he expects Rabbi E. Siegel of San Diego, to be the speaker.

OCEAN BEACH INFANT SURVIVES OPERATION PERFORMED IN EAST

A 1½ year old baby girl, daughter of Mr. and Mrs. M. L. Mero of 5093 Cape May ave., Ocean Beach, was alive at last reports and is reported recovering following an unusually delicate operation performed Monday night in Memorial hospital in New York City. The operation was for an eye malady that threatened the brain, and in order to save the life of the child, both she and her mother were flown by airplane to New York City last week. The little girl's left eye had been removed after birth because of a tumor and she had been under treatment nearly a year for a growth behind the other eye.

Fellow employees of the father, M. L. Mero at the Consolidated Aircraft factory, and Lodge J of A. F. L. Aeronautical Union 1125, last week donated \$638 to help pay for the child's expenses incident to the trip and the operation.

First Church of Christ, Scientist, in Boston, under the direction of The Christian Science Board of Directors, will be put on the air. The southern California station carrying this broadcast will be KGER (1390 kc.), Long Beach. It will be released at 5:45 each Saturday afternoon. This new program is in addition to the regular broadcasts over station KFOX at 1:30 on Monday, Wednesday, and Friday, and KFAC on Sunday afternoons at 5:15.

Rick Outlines Steps for Mission Bay Development

City Planning Director Glenn A. Rick, who returned a few days ago from a country-wide tour for ideas that would be helpful in planning the proposed improvement of Mission Bay, on Tuesday turned over to the city council the following seven-point recommendation for the Mission Bay project:

1. A careful analysis of the material gathered.
 2. Preparation of a tentative plan for analysis and discussion.
 3. Creation of an advisory committee of interested citizens and representatives of yacht clubs, rowing clubs, boat clubs, etc.
 4. Submission of a revised plan to the city council and city planning commission.
 5. Presentation of the plan to the state park commission.
 6. Submission of the plan at various stages to members of the staff of the U. S. Engineers office.
 7. After approval of the physical plan by the appropriate agencies, the formulation of a financial program. This may be based upon the policy of city-state cooperation on one or more projects, or it may be that the more practicable method would be the division of the bay area into groups of certain projects for city development and others for the state park commission.
- "This is not the time for decision on this or many other matters of policy," Rick commented. "As generally agreed, the first step is to incorporate the best ideas available into a paper plan and get as much agreement from the officials and people of San Diego as possible."

PRINCIPLES, NOT PERSONALITIES

On Tuesday, Nov. 7, the people of America have a vital choice to make. It is not a choice between two men or between two parties. It is a choice between two concepts of government—two ways of life. If we fail to grasp this fact, we miss the basic issue of this presidential election, and we may be led to support the forces which, if not checked, must eventually undermine the very foundation of our democratic government.

So, this is a time for straight, hard thinking. It is not a time for emotionalism. This is a time to ponder principles. It is not a time to worship at the altar of prejudice and personality.

What we, the people, decide now will have its effects for many years to come. In making our decision, we should remember that no person nor political group is perfect. They all have serious faults. Isolationism is not the exclusive property of any one party. Un-American ideologies under one guise or another are found in many camps.

When the "shouting and the tumult dies," when the charges and countercharges have ended, then the voter must speak. He must decide whether we are going to stop the trend away from the basic American principles which guided the nation in its first 150 years of existence, or whether in the name of another emergency we are going to increase that trend.

Let us hope the decision is made on principles, not personalities.

FILL THE WAR CHEST!

In the production of things that mean destruction to our enemies, California has been zealous. Planes, ships and munitions have flowed to the war zones in ever-increasing measure.

Equal zeal and whole-hearted generosity will provide the things that mean life and hope to our friends and loved ones abroad, to our men in service and to the unfortunate among us at home. That means contributing to the War Chest to the utmost.

The wretched and homeless of friendly nations look to the American War Chest for funds to sustain life until the ravages of war can be repaired. Our sons in uniform look to the Chest for countless aids to morale. Every family with a boy or girl in service knows the vital work of the USO, the camp shows, the War Prisoners Aid, Seamen's Services and Field Services.

The War Chest means life to countless thousands. It means help for the stricken. It means hope to American boys held in prisoner war camps. Their voices beseech us to give until the War Chest overflows.

THE JAPANESE FLEET

Military experts are agreed that the great victories of the American Navy over Hirohito's fleet in the Philippines and off Formosa have shortened the war by many months.

The battle in Leyte gulf where Vice-Admiral Kincaid daringly split his forces and attacked stronger enemy flotillas converging on the American beachheads proved once again that even when outnumbered our battle fleet is still superior to the Japs.

Certain it is that now the Nips will not be able to challenge an American landing on the China

coast as effectively as they might have before they chose to risk battle with our warships off Formosa and in the Philippines.

One result of this victory should soon appear in the "sudden deaths" of many Japanese admirals. Those naval officers who "survive" will have to take up deep sea diving if they want to review the emperor's fleet.

Our toast to the Japanese navy: "Bottoms up!"

San Diego County Gets \$20,454 in Car License Fees

San Diego county received \$20,454.68 of an apportionment of \$1,105,234.44, to the cities and counties of California, representing vehicle license fee collections for the quarterly period ending June 30, according to an announcement today by Gordon H. Garland, director of Motor Vehicles.

Twenty percent of the \$1,105,234.44, or \$221,046.88, goes to the general fund for retirement of highway bonds. Of the remainder, \$442,093.78 goes to the cities of the state on a basis of 5,325,090 population.

Vehicle license fees formerly were collected by the cities and counties as personal property taxes. Vehicle owners will pay the same license fees next year as this, despite the current upward trend in market values of used cars, because of a special legislative act sponsored by the Department of Motor Vehicles and signed by Governor Earl Warren.

MOTORISTS WARNED OF HAZARDS OF DRIVING DURING WET WEATHER

Cautioning that wet weather driving is in the offing, Lt. W. E. Warner, S. D. police traffic division commander, urges that all vehicle owners check their vehicles now for faulty windshield wipers. Every winter there are many accidents directly attributed to lack of vision occasion by faulty windshield wipers, Warner stated.

Hundreds of drivers wait until after the rainy season starts before they make the necessary repairs; some not until after they have had an accident or were cited, Warner said. He cited the fact that if motorists will repair their windshield wipers now, lives will be saved, injuries prevented, and countless others will avoid arrest.

GOD IS MY CO-PILOT

By COL. ROBERT L. SCOTT
WNU Features.

CONT. FROM LAST WEEK

After my father had pulled me from the wreckage—more scared than hurt—I was ordered to tear the glider apart. I did, but saved the ill-fated canvas for other plans. Later on it was used to cover the barrel-stave ribs of a home-made canoe which was intended to transport me down the Ocmulgee River to the sea, some twelve hundred miles away as the winding river ran. I had made about six hundred miles of the trip when the sailing canoe caught on a snag and the current rolled us to the muddy bottom, tangled in the rope rigging of the sail. In the seconds that followed I nearly drowned—I saw my whole misspent life parade before my eyes. Finally the rope broke and I swam ashore; but I had already decided to leave the sacred canvas, seasoning forever, at the bottom of the Ocmulgee River.

Once again my mind turned to flying. I confined my aircraft construction to scale models, and finally made a flying one which won the first Boy Scout Aviation merit badge in that part of the country. I remember when General Mitchell (Billy Mitchell) led a flight of fast-looking MB-3's through the home town. I crawled into one of the baggage compartments in hopes that I would be flown on to Florida in this dawn-to-dusk flight. But the mechanics found me, and I missed making the pursuit ship any tail heavier than it normally was.

It was far back, when I was four or five, that I had seen my first airplane. A pilot by the name of Ely spun in and was killed, and my horrified mother dragged me from the scene. It most certainly should have been an ill omen for my flying future. However, I know that it whetted my appetite to fly. I liked anything that flew and freed one from the earth, but most of all I prayed that destiny would make me a pilot of the fast, little single-seaters—a fighter pilot.

In 1921 I read of an auction sale of war-time Jennys in Americus, Georgia. Gathering the largest fortune that I could collect, I drove my cut-down Model-T racing Ford to buy myself a real plane. As the auctioneer's hammer hit the block for the first time that morning I opened with my maximum bid—Seventy-five dollars! The auctioneer did look my way, but the look was merely a frown. Far in the back of the hangar a heavy voice called, "Six hundred dollars." And to this fat man the Jennys went, one by one. I must have bid over a hundred times before the morning had gone—the sale had stopped for lunch and had been resumed.

That afternoon I kept bidding, and as I said "Seventy-five dollars" for about my hundredth time, I heard heavy breathing over my right shoulder. I turned to look at the man who had been overbidding me, and the deep voice said, "Now listen, son, I'm going to let you have this one for your seventy-five dollars. Get it and get the hell out of here, because I'm buying all the rest for an airline." Anyway I had a real plane, all crated up. I hauled it home on a truck, hid it in another boy's garage so my parents couldn't find out about it, and began trying to assemble the parts.

For days and weeks I worked, but couldn't get the knack of it. Finally I received a letter from a street-car conductor who said he had been a pilot in the war. He offered to help me put the Jenny together, and teach me to fly and navigate, if I would give him use of the plane for "barnstorming" over the State on week-ends.

The partnership began. He taught me some fundamentals, like taxiing faster and faster until the ship was almost ready to take off. I went to Chandler Field in Atlanta and took several lessons with the instructors there in Eagles and Jennys, until one day I trusted myself to take off from the racetrack of my hometown fairgrounds. I still don't see how I got by with the flight, because I knew nothing about coordination of controls or the technique of flying—though no one seemed to know much about them in those days. But the ship was a pretty safe old crate, the wing skids saved me from digging a wingtip in on the forthcoming ground-loops, and I got away with murder.

All of this ended very suddenly. The street-car conductor instructor of mine came back to land one night and hooked the Jenny's right wing on the guy-wire of a smoke-stack. That was the last of him and the last of my Jenny, because they both burned.

As the years went on I moved up in the Boy Scouts until at seventeen, in 1925, I was one of the highest in the country, and had more merit badges than any other Scout in the South. With all of them, however, my schooling had suffered, for to me flying and athletics came before books and such. I sometimes think the only way I ever completed high school was for my patient mother and father to promise to let me work my way to Europe on freighters in the summer only when I could pass studies like Spanish and English. I don't think, though, that my parents knew I had resolved to go to West Point. For after talking to men in the Air Corps I had discovered that if a boy went to the Training center at Brooks Field, near San Antonio, as a Flying Cadet, his future was rather indefinite. The Government would train you to fly, give you the best course in the world. Then they would order you to active duty as a Reserve Officer for about a year. After that, due to economy programs, it might all be over.

Wanting to fly for the rest of my life, I had charted my course. I resolved to go to the Military Academy and become a regular army officer first; then to be ordered to the Air Corps Training Center as a student officer. After completing the flying course, I would have a lifetime in front of me as a pilot in the Regular Army.

The greatest fight I had was to get into the Military Academy, for appointments were scarce in the South. I wrote all the Senators and Congressmen in Georgia, but found they had promised their quotas long before. All such refusals merely made me more determined to win the opportunity. I wrote not only my own State political leaders but those of other States. Finally, the Congressman of my Georgia district—at the earnest plea of hometown friends who knew of my Boy Scout record—gave me second alternate. This proved of little value; the principal won out by merely presenting his high-school credits and passing the physical examination. The next year I was given a first alternate from a Senator but again the principal won.

Hope of entering the Academy seemed to wane, for I was approaching maximum age limit for applicants. The same year I tried a competitive examination with the National Guard, but failed the algebra subject. This failure at least proved to me that though my studies in high school may have been passed, I had learned very little. My stock in myself was at a low ebb, there in 1926, when the high-school principal did me the greatest favor in the world by his remark: "Well, you really didn't expect to go to West Point, did you?" And the smile that accompanied the slur made me swear that by all that was high and holy I would get there.

The things that followed were chronologically peculiar for any boy. I'll bet I'm one of the few in this world who was graduated from high school, attended two colleges, and then returned to high school to really get the foundation I had missed. I know I had at last learned that what one of the old professors said was right: "Not for school, but for life, we learn."

WAR BONDS assure the things you want after victory!

Keep the Schools Out of Politics

Returning to my old high school, I chose my own courses and subjected myself to several periods of mathematics, history, and English every day. The professors, who remembered me as seldom opening a book, glanced at one another as though they thought they had a psychopathic case on their hands. But I acquired some of the knowledge I had missed, and the next summer—June, 1927—I went to Fort McPherson and enlisted in the Regular Army as a private. There I became Private Scott, Serial Number 6355544, in Company "F" of the 22nd Infantry. Three months later, after a preliminary examination, I began training in the Fourth Corps Area—West Point Prep School.

CHAPTER II

Scott put in six months of study there, for there were some eight hundred of us soldiers trying in competition for about fourteen vacancies. As luck would have it that year, these fourteen were cut to eight. Once again West Point seemed a long way off. I got down to business then; I would shut myself in my room and almost memorize the lessons, especially every old West Point examination as far back as 1920. The study bore fruit. I kept at the top of the class and in March took the dreaded examination.

One day, some weeks after the annual competition for entrance from the Regular Army, I was walking guard duty. I was called from Post Number One, around the guard-house; I had just heard the familiar call, "Number One—two prisoners," and had replied, "Turn 'em in." The General had sent for me. As I stood before him my heart felt as though it would beat out through my blouse. He smiled and spoke.

Follow the Leadership of EARL WARREN!

Your Governor puts California above personal interests. He asks you to put America above party interest. Governor Warren tells you that America needs Dewey. He tells you that you can depend on Dewey to do a job.

Here is what Governor Warren says:

"I AM for Tom Dewey because I sincerely believe he will bring leadership to our national problems which will inspire teamwork. We must have teamwork if we are to win lasting peace and prosperity.

"Tom Dewey possesses the youth and vigor and the courage to get things done. His distinguished public career speaks for itself.

"And I am for John Bricker because I know he, too, has the executive capacity and experience in government administration required for the position which is but one heart beat from the presidency.

"Together, these two outstanding governors of two of our most important states constitute a team with which all levels of government and all the people can work in building a greater future. Believing this sincerely, I am for Tom Dewey and John Bricker and greater national unity of effort."

Vote for DEWEY and BRICKER TUESDAY!

IMPORTANT: Regardless if you are registered as a Democrat or Republican, you receive the same ballot when you go to vote. Your ballot is secret and no one will know how you mark it. Don't let anyone intimidate you into voting against Dewey and Bricker, if you agree with Governor Warren and other great Americans—regardless of party—that they are the best leaders for the nation today.

Splendid Cough Relief Is Easily Mixed at Home

No Cooking. Makes Big Saving.

To get quick and satisfying relief from coughs due to colds, mix this recipe in your kitchen. Once tried, you'll never be without it.

First, make a syrup by stirring 2 cups granulated sugar and one cup of water a few moments, until dissolved. A child could do it. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup. Then get 2 1/2 ounces of Pinex from any drugstore. This is a special compound of proven ingredients in concentrated form, well-known for its prompt action on throat and bronchial membranes.

Put the Pinex into a pint bottle, and add your syrup. This makes a full pint of splendid medicine and you get about four times as much for your money. It never spoils, and tastes fine. And for quick, blessed relief, it is amazing. You can feel it take hold in a way that means business. It loosens the phlegm, soothes the irritated membranes, and eases the soreness. Thus it makes breathing easy, and lets you sleep. Money refunded if not pleased in every way.

Kidneys Must Work Well

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

In the dark of the moon, echo sounders on submarines tell when fish schools are around. It's all to the aid of the fishing industry which has been asked to produce a million and a quarter more pounds of fish this season than last.
